WORKSHOP

Students can learn how to express the emotions while singing songs, poems reciting, or cultures exchanging. Build up the confidence of speaking in English in a natural way.

Advanced courses are drama playing, creative art courses. Students can have significant progress from expressing themselves in short sentences only into finish a complete performance with full training.

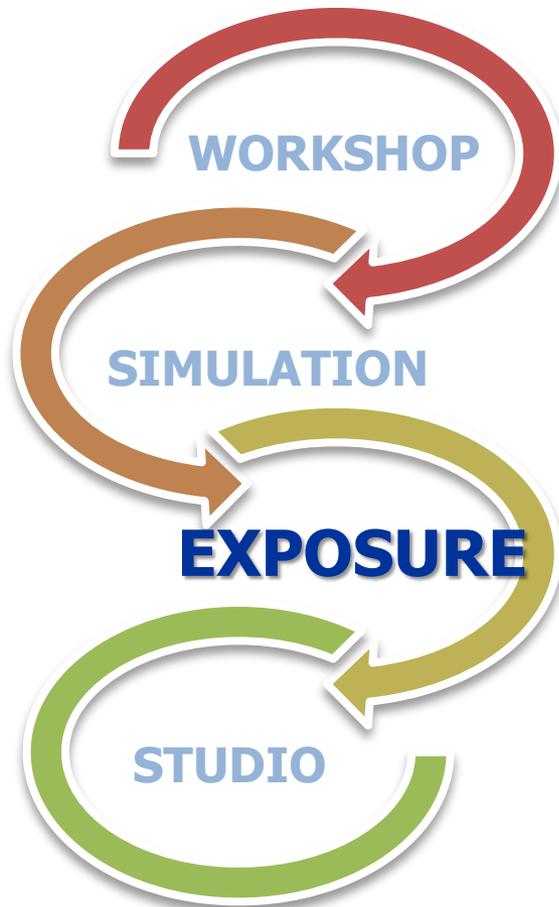

Winning Teaching System

SIMULATION

Students can select an item which is related with their daily life from the series and stimulate it, so they can learn the conversation skills and related vocabulary in the lectures. **Example: Students can act as a manager who needs to set the recruitment qualification and arrange interview. The teacher will create a simulative scene and react with the students with proper conversation and procedure. So the students can have a strong impression during the simulation and use the skills learned in the real life.**

Winning Teaching System

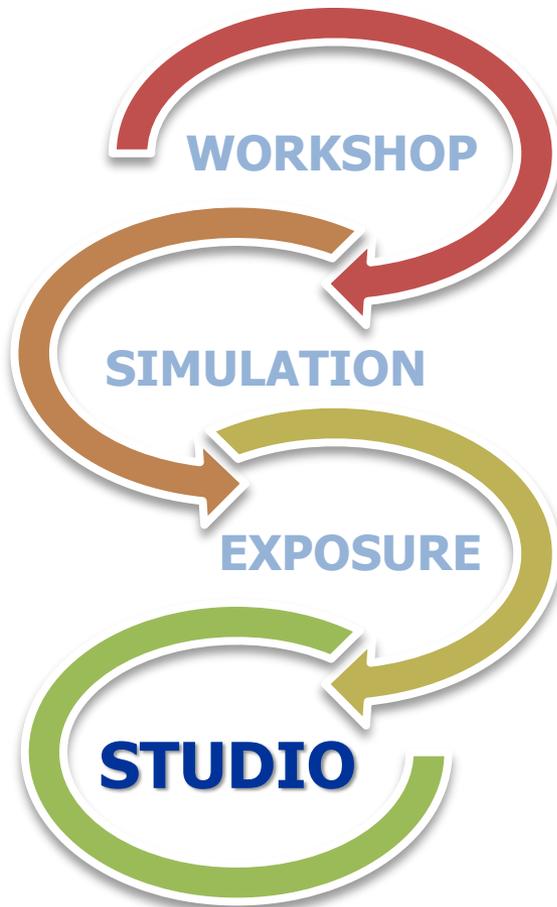

EXPOSURE

WINNING has various local sources like hospital, companies and schools. Students could not only learn intuitive speaking, also make foreign friends and expand their social network while taking different tasks there.

FEEDING plan, cooperated with the local charity. This plan comes with many positive feedbacks. Students will assist the orphans to make drinks, desserts with teachers, and share it with other children. Students can feel the warm side of the Philippines while interacting, singing with children.

Winning Teaching System

STUDIO TIME

STUDIO TIME will be held on the last Friday every month. Students will share what they learn currently during the courses mentioned above, like **WORKSHOP, SIMULATION...etc.** Students will learn how to organize and prepare a presentation. New students will also attend it to see how does **WINNING** run this project, gaining the experience of learning independently and set their goals. The final goal of **WINNING** is to create an excellent English environment and increase the motivation of learning English.
